

07 – 20 January 2019

# Wetskills 2019

**CEE**

Centre for Environment Education

After two successful chapters of Wetskills in years 2015 and 2017, Centre for Environment (CEE) in collaboration with Wetskills Foundation, The Netherlands is offering a two week programme in January 2019. Students and young professionals with a passion for water can apply for this course for learning and international networking. The teams of students and young professionals will be given water related case studies wherein they will use their creativity and come up with practical solutions.

### Objective

To facilitate exchange of ideas, knowledge and innovation, and develop social entrepreneurship models, thereby building social cohesion among various sectors of the society vis-à-vis water issues

### Participation benefits

- Unique learning experience to understand and tackle on field water challenges and strategize to solve it
- Skill development like problem solving, cross-cultural and interdisciplinary teamwork, international cooperation
- Networking opportunity to connect with other international water students/young professionals
- An opportunity to visit Ahmedabad, India's first UNESCO heritage city and learn about traditional practices of water conservation, be part of kite festival
- A chance to visit **Vibrant Gujarat Summit 2019**
- Receive certificate of participation and chance to present your case studies to industrial and academic experts

**Registration Fees: Rs. 2500/- per participant**  
(includes meal, field trip conveyance, workshop kit.)

**Excludes accommodation or any other expenses not specified)**

**Last date to register: 15<sup>th</sup> December 2018**
