Assignment: Answer any three questions. Answers should not be more than 300 words. Each question carries five marks

1. Describe the ecological function of forests.
2. What are the main causes of forest loss and degradation?
3. Community protected forests. What are these and explain their role in forest conservation.
4. What components define a healthy forest ecosystem?
5. Forests play a key role in shaping our climate, both locally and globally. Explain briefly.

Email the completed assignments to the course coordinator by 5th July, 2021, with Subject Line 'Your Name – Module 2 Assignment 2 – Forests'.
